PREFACE

The publication of this bibliography by the National Library of Canada fulfills a contract under the terms of which Sharon Professional Services of Ottawa agreed to compile, edit and produce camera-ready copy for Canadian Theses for the academic years 1976/1977, 1977/1978, 1978/1979 and 1979/1980.

The bibliography includes graduate theses accepted by Canadian universities and is compiled from information supplied by the libraries and the graduate studies offices of the universities. The cooperation of participating institutions is gratefully acknowledged.

Arrangement

The cumulative text is in two volumes. The author index, at the end of volume 2, is a combined index to the theses listed for all four years. All statistical tables are located at the beginning of volume 1.

The arrangement in broad subject divisions is based on the 19th edition of Dewey Decimal Classification. Within each subject, theses are listed by author. In general, each subject includes the subdivisions to be found in the corresponding sections of Dewey. For example: social anthropology is listed under Sociology; physical anthropology under Anthropology. The numbers in parentheses accompanying the subjects listed in the table of contents indicate the Dewey classes covered by the headings. See references have been added to the table of contents to aid in locating the desired subject, e.g. Public administration see Political science, International relations, Public administration.

Availability

Université de Montréal theses which are listed include a special location number in the entry and are available on microfilm. For example:

Bachand, Jean-Paul
L'approche behaviorale des dépressions.
M.Ps., 1979.
2M11 490.2 (location number)

These theses may be consulted or borrowed on interlibrary loan from the National Library of Canada. The National Library is not authorized to make paper or microform copies of Université de Montréal theses or to offer copies for sale.

The majority of theses from other universities include a numerical series number in the entry. For example:

Whitney, Carl Linn
The control of singing in varied thrushes.
Ph.D., U.B.C., 1979.
42782 (series number)

They may be ordered from the Canadian Theses on Microfiche Service, Collections Development Branch, National Library of Canada, Ottawa, Canada K1A 0N4, or they may be borrowed on interlibrary loan. For faster service always quote the thesis series number. Prepayment of all orders is required, with the remittance payable to the Receiver General for Canada.

Future plans

In early 1984 the National Library will begin publication of Canadian Theses (Microfiche). The publication will list all items microfilmed by the National Library of Canada and published and catalogued as part of its Canadian theses on microfiche series since 1981, and all masters and doctoral theses accepted during and after academic year 1980/81 by Canadian universities not participating in the microfilming program, as well as foreign theses of Canadian authorship or association catalogued by NLC from 1981 on.

PRÉFACE

La publication de cette bibliographie par la Bibliothèque nationale du Canada s'inscrit dans le cadre du contrat en vertu duquel Sharon Professional Services d'Ottawa a accepté de compiler, de réviser et de produire les clichés typographiques de Thèses canadiennes des années universitaires 1976-1977, 1977-1978, 1978-1979 et 1979-1980.

La bibliographie comprend les thèses de doctorat et de maîtrise acceptées par les universités canadiennes et a été préparée à partir des renseignements fournis par les bibliothèques et les départements d'études supérieures des universités. Nous remercions tous les établissements qui ont contribué à la réalisation de cette bibliographie.

Présentation

Le texte cumulatif s'étale sur deux volumes. L'index des auteurs à la fin du volume 2 est un index de toutes les thèses énumérées pour les quatre années universitaires. Les tableaux statistiques se trouvent tous au début du volume 1.

Le texte comporte de grandes divisions thématiques basées sur la 19^{e} édition de la Classification décimale de Dewey, et à l'intérieur de chaque sujet, les thèses sont répertoriées d'après les auteurs. En général, chaque sujet comprend les subdivisions que l'on trouve dans les sections correspondantes de Dewey (ex.: anthropologie sociale figure sous Sociologie et anthropologie physique sous Anthropologie). Les nombres entre parenthèses qui accompagnent les sujets répertoriés dans la table des matières désignent les classes de la classification décimale de Dewey que couvrent les vedettes. Des renvois voir ont été ajoutés à la table des matières pour aider à trouver le sujet désiré (ex.: Administration publique voir Science politique, Relations internationales, Administration publique).

Disponibilité

Les thèses de l'Université de Montréal sont accompagnées d'une cote topographique et sont disponibles sur microfilm.

ex.: Bachand, Jean-Paul
L'approche behaviorale des dépressions.
M.Ps., 1979.
2M11 490.2 (cote topographique)

Ces thèses peuvent être consultées ou empruntées à la Bibliothèque nationale du Canada par l'entremise du prêt entre bibliothèques. La Bibliothèque nationale n'est pas autorisée à reproduire les thèses de l'Université de Montréal sur papier ou sur microforme ni à les vendre.

La plupart des thèses des autres universités sont accompagnées d'un numéro de série.

ex.: Whitney, Carl Linn
The control of singing in varied thrushes.
Ph.D., U.B.C., 1979.
42782 (numéro de série)

Ces thèses peuvent être commandées au Service des thèses canadiennes sur microfiche, Direction du développement des collections, Bibliothèque nationale du Canada, Ottawa, Canada K1A 0N4, ou peuvent faire l'objet d'un prêt entre bibliothèques. L'inscription du numéro de série permet d'accélérer le service. Toute commande est payable d'avance et le chèque ou mandat-poste doit être établi à l'ordre du Receveur général du Canada.

Projets

La Bibliothèque nationale commencera à publier Thèses canadiennes (Microfiche) au début de 1984. Cette publication énumérera tous les articles microfilmés par la Bibliothèque nationale du Canada, publiés et catalogués depuis 1981 dans le cadre de la série des thèses canadiennes sur microfiche, toutes les thèses de maîtrise et de doctorat acceptées depuis l'année uni-

Canadian Theses (Microfiche) will be published semi-annually in two registers, each containing bibliographic records arranged in separate computer-assigned numerical sequences. Register 1 will include theses published or accepted in Canada; Register 2 will include theses published outside Canada that have a Canadian author or Canadian association. The registers will be accompanied by five indexes:

Index A: author/title;

Index B: KWOC (Key Word Out of Context);

Index C: Dewey decimal classification;

Index D: Canadian theses on microfiche series number;

Index E: ISBN.

Although the registers do not cumulate, each semi-annual issue of the indexes will cumulate entries from previous issues.

The first issue of Canadian Theses (Microfiche) will be available as a priced publication in early 1984 and may be purchased from Canadiana Editorial Division, Cataloguing Branch, National Library of Canada, 395 Wellington St., Ottawa, Canada K1A 0N4.

Canadian Theses on Microfiche: Catalogue: Supplement, a numerical listing of Canadian theses by series number, will no longer be produced in its printed format, but will be replaced by Index D (Canadian theses on microfiche series number) of the new Canadian Theses (Microfiche) product. This index will be distributed separately, free of charge, to those currently receiving the printed list.

National Library of Canada

versitaire 1980-1981 par les universités canadiennes qui ne participent pas au programme de microfilmage, ainsi que les thèses étrangères rédigées par des Canadiens ou touchant le Canada, cataloguées par la Bibliothèque nationale depuis 1981.

Thèses canadiennes (Microfiche) sera publiée semestriellement en deux registres, qui contiendront chacun des notices bibliographiques classées numériquement par ordinateur. Le premier registre comprendra les thèses publiées ou acceptées au Canada, et le deuxième, les thèses qui ont été publiées à l'extérieur du Canada mais dont l'auteur ou le contexte est canadien. Les registres seront accompagnés de cinq index:

Index A: auteur/titre;

Index B: index dit KWOC (Key Word Out of Context);

Index C: Classification décimale de Dewey;

Index D: numéros de série des thèses canadiennes sur microfiche;

Index E: ISBN.

Bien que les registres ne soient pas récapitulatifs, chaque parution semestrielle des index comprendra les notices des numéros précédents.

Le premier numéro de Thèses canadiennes (Microfiche) sera publié au début de 1984 et vendu par la Division de la rédaction de Canadiana, Direction du catalogage, Bibliothèque nationale du Canada, 395, rue Wellington, Ottawa, Canada K1A 0N4.

La publication intitulée Thèses canadiennes sur microfiche: Catalogue: Supplément, liste numérique des thèses canadiennes répertoriées selon les numéros de série, ne sera plus produite dans sa version imprimée et sera remplacée par l'index D (numéros de série des thèses canadiennes sur microfiche) du nouveau produit Thèses canadiennes (Microfiche). Cet index sera distribué séparément et gratuitement à tous ceux qui reçoivent la liste imprimée.
